

To all who are interested in visiting Reffurence or are in general following our convention. And especially to our guests,

## Statement

Many of you took notice of the rescheduled dates<sup>1</sup> of the Eurofurence<sup>2</sup> conference. Unfortunately, our event overlaps with our announced dates. We want to address this situation as it involves many of our guests, and we understand that it is difficult to choose between visiting Reffurence or Eurofurence.

It's not a choice we would like to force upon our guests. Even within our voluntary staff team, some members are volunteers and/or want to visit Eurofurence and we would like to allow everyone to visit the conventions that they want to attend.

We want to apologize to our guests for the time it took to provide you with a response. We would especially apologize to our guests who have taken out leave from work to be able to attend our convention. Especially since we are holding ourselves to high standards, and we will continue to strive to meet them.

### **Reffurence will take place on the following dates:**

Main days: Thursday 03 Aug 2023 till Sunday 06 Aug 2023

Early arrival; Wednesday 02 Aug 2023

Late departure; Monday 07 Aug 2023

The board believes that changing the dates to August would give guests and volunteers the opportunity to visit Reffurence and visit Eurofurence without any conflicts in their schedules.

If you have further questions, please contact us at [support@reffurence.com](mailto:support@reffurence.com)

Sincerely,

Refferic  
*Board president of Reffurence*
